

Current Vehicle Tariff

Daily, monthly, excess-kilometre and SCDW rates reproduced from the supplied Vehicle Price List.

TARIFF RECORDS	SOURCE SCOPE	DOCUMENT DATE	SOURCE CURRENCY / VAT
111	Groups A-H All years	13 August 2026	Not stated - confirm at booking

Important: The source file does not identify the currency or whether VAT is included. Rate values below are reproduced without alteration. The source also contains two identical Group columns; this formal schedule displays that value once.

Rental Terms & Conditions

These general terms support the tariff schedule. The signed rental agreement and confirmed quotation govern each rental and take precedence if there is any difference.

1. Rates, currency and VAT

The tariff values are reproduced exactly from the supplied source. The source does not specify currency or whether VAT is included. The confirmed quotation and rental agreement must state the currency and VAT treatment. Applicable VAT and statutory charges will be handled in accordance with prevailing law.

2. Availability and vehicle substitution

All vehicles and groups are subject to availability at the requested branch, date and time. A model name is indicative of the applicable group unless a specific model is confirmed in writing. Where necessary, Budget may offer a comparable or upgraded vehicle, subject to agreement and availability.

3. Rental period and applicable tariff

Daily and monthly rates apply only when confirmed for the relevant vehicle group and rental period. Any extension, shortened rental, change of vehicle, branch, dates or usage may require re-pricing under the tariff and conditions applicable when the change is approved.

4. Mileage and excess kilometres

The included mileage allowance, if any, must be confirmed in the rental agreement. When an excess-kilometre charge applies, the listed KM Charge for the rented vehicle is used for each excess kilometre, subject to the final agreement. Odometer readings are recorded at check-out and check-in.

5. Insurance and SCDW

Standard insurance, renter liability and any excess are governed by the rental agreement. SCDW may be offered for eligible rentals at the listed daily or monthly rate. SCDW is not automatic, does not replace the rental agreement and remains subject to exclusions, prohibited use, reporting duties and applicable excess or liability.

6. Fuel

The vehicle must be returned with the same fuel level recorded at check-out unless a prepaid fuel option is confirmed. Missing fuel and any applicable refuelling service charge will be billed under the rental agreement. Fuel type instructions must be followed; damage caused by incorrect fuel remains the renter's responsibility.

7. Extensions and late returns

Extensions require Budget's approval before the scheduled return time and may be declined due to vehicle commitments. Unapproved extensions or late returns may result in additional rental time, loss of the confirmed rate, recovery action or other charges permitted by the rental agreement and applicable law.

8. Traffic fines, tolls and authorization

The renter is responsible for traffic fines, tolls, parking violations, impound costs and other offences arising during the rental. Budget may provide renter or vehicle details to competent authorities and charge any administration or authorization amount stated in the rental agreement or permitted by law.

9. Rental eligibility and documents

Rental is subject to Budget's eligibility approval for the selected vehicle group. The renter and each authorized driver must provide valid identification, a valid driving licence accepted for the rental location, required residency or travel documents, and an accepted payment method. Additional group restrictions may apply.

10. Authorized drivers and permitted use

Only drivers named and approved in the rental agreement may drive the vehicle. The vehicle must not be used unlawfully, for racing, towing without approval, driver training, off-road use unless authorized, overloading, sub-rental or transport outside the permitted geographic area.

11. Payment, deposit and additional charges

The renter authorizes Budget to collect confirmed rental charges and amounts arising under the agreement, including damage liability, fuel, extensions, fines and other approved charges. Any security deposit, pre-authorization and release timing will be confirmed at booking or check-out and may depend on the payment provider.

12. Accidents, damage and breakdown

Accidents, theft, warning lights, damage or breakdown must be reported to Budget immediately and handled according to the rental agreement and local reporting requirements. The renter must not admit liability, arrange unauthorized repairs or abandon the vehicle. Failure to follow reporting procedures may affect insurance or SCDW protection.

13. Vehicle condition and return

The renter must inspect the vehicle at check-out and report discrepancies before departure. The vehicle, keys, documents and accessories must be returned to the agreed location in the recorded condition, subject to fair wear. Cleaning, smoking, missing items or damage charges may apply where supported by the agreement.

14. Final confirmation and precedence

This tariff is a rate schedule and is not a reservation or rental contract. A rate becomes binding only after Budget confirms the booking and the renter accepts the applicable quotation and rental agreement. The rental agreement, applicable law and confirmed booking details take precedence over this general schedule.
